

CHAPTER 119
TOURIST-ORIENTED DIRECTIONAL SIGNING

761—119.1(321) Definitions.

“Primary highway,” for the purpose of this chapter, does not include an interstate highway or a free-way primary highway as defined in Iowa Code section 306C.10.

“Tourist-oriented directional signing” is official signing that is located within the right-of-way of a primary highway and that identifies and gives directions to activities or sites of significant interest to the traveling public. However, official signing for campgrounds and ski area facilities is not included in this definition. This signing is provided for elsewhere.

761—119.2(321) General.

119.2(1) *Conformance to MUTCD.* Tourist-oriented directional signing shall conform to the “Manual on Uniform Traffic Control Devices for Streets and Highways” (MUTCD), as adopted in rule 761—130.1(321).

119.2(2) *Spacing and location.*

a. Tourist-oriented directional signing shall be installed only when sufficient space is available.

b. Tourist-oriented directional signing shall be installed in advance of the intersection where the motorist leaves the primary highway system to travel to the activity or site. However, tourist-oriented directional signs may be placed within the maximum travel distance on a higher classified highway to direct motorists onto a lower classified highway, or on a greater traveled highway to direct motorists onto a lesser traveled highway.

c. Tourist-oriented directional signing shall not be placed at interchanges. If an at-grade intersection on a primary highway is replaced with an interchange, the intersection will no longer qualify for tourist-oriented directional signing. Any tourist-oriented directional signing previously erected shall be removed by the department.

d. If an adjacent landowner complains to the department about the placement of a tourist-oriented directional sign, the department shall attempt to reach an agreement with the landowner for relocating the sign. If possible, the sign shall be relocated to the least objectionable place.

119.2(3) *Advance signing.* Advance signing authorized by the MUTCD may be installed where the department determines that advance notification of an activity or site would reduce vehicle conflicts and improve highway safety.

119.2(4) *Message.* The message on a tourist-oriented directional sign is limited to a descriptive name and direction and distance to the activity or site. However, if an agricultural business activity offers tours, the message for the activity shall include the word “tours.”

761—119.4(321) *Specific eligibility requirements for the type of activity or site.* This rule describes the types of activities or sites that may qualify for tourist-oriented directional signing.
